GARRONG PARK PLAYSPACE Option B: "Thornhill"

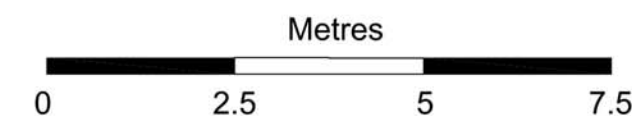

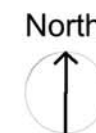

This play unit as shown, is able to replace the existing play unit without affecting other play equipment.

It is based on a unit similar to Bulleke-bek but will be styled to fit in with the other play equipment now in place.

The final version will be slightly more compact to ensure only minimal changes to landscaping are required to provide adequate space for safe fall zones around the base.

Relocation of existing park seat is proposed along with additional shade trees in lawn.

Plan Revision 01:
Change play unit text
16 June 2021

Scale: 1 to 100 @ A3
